COMMONWEALTH OF AUSTRALIA - Decimal Issues

This section includes the best selection of the ever-popular "Missing Colour" errors that we have ever offered. These are cross-referenced to "Pierron's Modern GB and Commonwealth Missing Colour Errors" (2008), which lists only "totally missing colours". References are made to the results for Sir Gawaine Baillie's errors that were sold at auction in Melbourne in July 2005, generally for stronger prices than were achieved in London for Tom Pierron's errors in December 2009.

INDIAN FEUDATORY STATES - Bahawalpur

Some time ago we began receiving occasional consignments of Bahawalpur including a number of covers. This was quite startling as the remarkable "Hyphasis" Collection - sold by us on 8.10.2005 - had very little cover material. To say that eyebrows were raised by the new "discoveries" would be an understatement. However, many of the items were recorded and in some cases illustrated in the monumental work "The Amirate of Bahawalpur" by Isani & Abid (2006). Our enquiries have revealed that all of the "new" material - including specimen stamps, proofs and revenues - is from the personal collection of the Amir of Bahawalpur. After his death in 1966, the Amir's estate was sequestered as legal battles raged within his family. These matters were finally resolved only a few years ago, resulting in the philatelic material being acquired by two Pakistani collectors, who are our vendors. Apparently fearing that this material is either not genuine, or that a great quantity exists, some collectors have decided not to participate in our recent sales. We have sought to allay these fears. We have requested the vendors to obtain certificates of authenticity before sending material to us and this they have done: many of the certificates are signed by Dr Isani. We have also been assured that there is no huge hoard of material lurking in Pakistan. Some of the covers, especially those with high values or with handstamped Star & Crescent devices, were almost certainly philatelically contrived. However, if it weren't for the Amir having organised the return to him of such covers, most of this material would simply not exist. At least it has passed through the postal system. And many of the covers have all the attributes of being undoubtedly commercial or official mail. Our expectation is that once this source is exhausted, we will return to the days when Bahawalpur covers were rarely seen. And then we expect that many collectors will express their regret at not having participated in our auctions when the Amir's covers first came onto the market.
