### WESTERN AUSTRALIA - Postal History

Virtually all of the material in this section is from the excellent collection formed by Trevor Hiscock, first offered in our auction of 22/2/2013. At our vendor's request, most of the estimates have been significantly reduced. References to Dr Cecil Walkley are to our auctions of 14/4/2005 (stamps) & 27/11/2010 (postal history).

The printed matter rate was 1d per 4 ounces or part thereof so the parcel weighed between 12 & 16 ounces. [In our opinion, parcels and other non-letter rate mail are grossly underappreciated]	350
