667 P A+

1963-65 Navigators 4/- Abel Tasman die proof in blue on cream wove paper (69x70mm) affixed to a slightly larger piece **before** the impression was made & "tied" by the instrument number 'R684' in reverse at upper-left. A delightful & important proof. *Ex "Whiskers"*. Superb! [The ACSC states that 10 recessed die proofs were produced: BW #404DP(1), Cat \$4000. However, this item shows no evidence of having been removed from an RBA mount and appears to be a previously unrecorded die proof, of different - and, we suggest - somewhat greater significance than the presentation proofs]
