

Lot Type Grading Description

Est \$A

INDIA

Apart from the airmail covers, the lots in this section are from the correspondence of a British engineer who went to India in the 1870s to work on the Railways. This material has never before been on the market & thus offers the prospect for real discovery. See also Lots 1077, 1100, 1408 & 1411, all from the same source.

**Lot 1365**
