1864 (Oct 13) Commercial Banking Co cover to "Brunswick/Germany" endorsed "Via Southampton" with *Diadem* Perf 13 1/- rose-carmine SG 168 + *De La Rue* 2d two pairs tied by very fine Sydney duplex, London transit cds of DE22/64 & 'PD'-in-circle h/s both in red, Aachen transit cds of 23.12.1864, a couple of very minor imperfections. A very fine cover to a very scarce destination. [According to *White et al*, there was a rate by private ship via Southampton of 4d per ½oz. 1/8d = 20d = an article weighing between 2 & 2½oz. However, it is far more likely that the direct route via Marseilles was intended, for which the rate was 1/8d between ½oz & 1oz]

1873 (May 3) complete edition of the 'Fiji Times' newspaper dated April 2 1873 franked Fiji 2c on 1d blue SG13 & with NSW DLR 1d affixed over the Fiji stamp & tied by 'SYDNEY/JU14/1873/NSW' cds. [Britain & Colonies did not recognise the Fiji Government or its stamps, so they were valid only to the first port of call, where additional stamps were required for on-forwarding. In 1874 King Cakobau ceded Fiji to Queen Victoria and it became a Crown Colony, after which the additional postage was not required]

This & the next two lots are from an important original find of issues of Fiji's first newspaper: see also Lots 901 to 911. In each case, the wrapper with the address was discarded but empirical evidence shows that they were sent to England. [All have some soiling that is greatly reduced with careful use of a soft eraser]

570 C A- **1877** (July) cover with oval 'BANQUE DE LA NOUVELLE CALEDONIE/NOUMEA' cachet across the flap, to France "Via San Francisco" with NSW 1d 3d & 4d tied by very fine Sydney duplex of JY25/77, very fine London transit of 12SP77 & 'ANGL/AMB CALAIS E' transit cds both in red & 'AMORNIS/LOIRE-INFERIEURE' arrival b/s, opened-out for display. **A very rare foreign-origin cover.** [It is suggested that the sender intended the cover to be carried first to Auckland to connect with the service to San Francisco. However, being sent to Sydney resulted in it being sent direct to England. Having said that, the London arrival date doesn't conform with *Colin Tabcart's* tables]
