WESTERN AUSTRALIA**Lot 832**

832 * A **1861 Perkins Bacon** Rough Perf 14-16 1/- dark green SG 46 with perfs at right & left and cut from the sheet at top & base, with part '[CANC]ELLED' handstamp applied vertically, large-part o.g., Cat £12,000. *Ex Peter Jaffé and Bill McCredie*: sold at auction in 2011 for \$13,800.

Six examples each of the so-called "Ormond Hill Specimens" were produced by *Perkins Bacon* for all of "their" Colonies at the request of *Rowland Hill's* nephew and gifted to him, action that resulted in the *Agent for the Crown Colonies* terminating *Perkins Bacon's* printing contracts. 75 different stamps were involved, of 20 British Colonies and four stamps of Chile. The 'CANCELLED' h/s was applied to blocks of 6 that were later separated, often with scissors or a blade, resulting in many of the individual stamps having trimmed perfs on one or two sides. [**NB**: for the WA 1/-, based on application of the handstamp, it appears that a pair and block of 4 were supplied]

For Western Australia, the recorded stamps are 1d x2, 6d x4 & 1/- x5 (the most recently discovered with 'CANCELLED' removed!! by an idiot). A full "set" is in the *Royal Collection*.

Extensive duplicated collection in 7 large stockbooks with a half-page of Lion forgeries, array of other primitives including 50+ native covers, pre-1960 with lots of shades, imperfs & perf varieties, offsets, tete-beche pairs & blocks etc, Parcel Post issues including 1929 3a sheetlet imperf between, 1960-64 Agency Issues including M/Ss with much CTO & many on FDCs and other local covers, later to 1981 with many plain FDCs, lots of postmark interest especially in the earlier material, also some unused & used Postal Stationery including primitive types, condition throughout - especially of the stamps - is generally fine to very fine but there is some toning from storage in Queensland so inspection is recommended. One of those collections that is more interesting than valuable and that offers lots of bang for your buck.

The collection was formed by a German resident of Kabul. Most of the 1960s-80s covers are self-addressed locally but there are many to his family in Germany including apparently legitimate usage of the Agency issues that are unlisted by *Gibbons*. (1000s)
